Student job opportunity in soil science!

We are looking for a student (m/f/d) to help us with our project “Provision of services to society by organic agriculture“, focusing on soil erosion. Working hours are flexible and you can work from home.

Your tasks:

- Extracting data from scientific papers and entering this data into a data bank
- Assistance with visual soil evaluation in field trials (in and around Freising and Munich)

Requirements:

- Student in the soil or agricultural sciences
- Excellent English skills
- Good eye for detail
- Experience using Microsoft Excel
