

About US

TU eMpower Africa e.V is a non-profit organization working towards one question, how can energy transition foster sustainable development of communities in Africa? The organization is focused on decentralized energy-water-food systems. Africa is blessed with human capital and natural resources of which are underutilized. Thus, our mission is to provide countries in Africa with:

1. Clean and affordable energy systems
2. create jobs and economic growth
3. Access to the agricultural resources to the farmers
4. Attain food security

Are you interested in fostering sustainable developments for struggling communities? Join us as we promote sustainable development for African communities through research-based solutions motivated by students, researchers, alumni, and friends of the Technical University of Munich (TUM).

Want to join our International Team? Develop your creative expertise with us.
